

NEVCO

ENGINEERING MANUFACTURING

Ezy Approach Trailer

Low Approach Angle for EZY LOADING

Hydraulics raise and lower the deck to achieve less than 3° approach angle.

Each trailer is custom designed & manufactured to suit your requirements.

Options available are only limited by your imagination.

Design engineered for ease of handling and stable towing.

Cargo capacities exceed 3000kg (4500kg ATM).

DUAL AXLE MODEL

Testimonial: I am continually amazed at your professional approach to customer service. Your product is outstanding and your backup and customer service even better – thank you.
Porsche Motorsport Australia

Protect your investment

Each trailer is designed and engineered to exceed Australian Design Rules, Australian Standards and state/territory registration requirements.
